## EXPERIENCE

### QA Engineer - Quality Logic, Oklahoma City

September 2020 - Present

- Utilized Cypress & Jenkins to create and maintain comprehensive test suites, including End to End, Regression, and Smoke tests.
- Improved client quality assurance measures by integrating into agile development teams and implementing best practices.
- Reported on the results of automated tests, including defects, bugs, and other issues discovered during execution.

### Full Stack Developer - Blank Canvas Technology, Oklahoma City

October 2018 - September 2020

- Developed and maintained full-stack web applications using a variety of technologies, including React and Node.js.
- Developed and implemented continuous integration and deployment processes to automate the delivery of web applications.
- Improved the user experience of web applications through the use of modern design principles and responsive design techniques.

### Broadband Technician - Sprint, Oklahoma City

March 2018 - December 2018

- Maintained and secured company equipment, while providing thorough documentation of installations, repairs, and maintenance.
- Provided exceptional customer service by analyzing and resolving complex issues using resource documentation and other tools.
- Expertly installed and configured communication equipment for a wide range of commercial and residential settings.
